MAKE YOUR AIR CONDITIONER SMART

Introducing ACWand – smart control for your air conditioner. Control your AC from anywhere, anytime.

Improve your comfort while reducing your energy consumption. ACWand is the ultimate device to control your air conditioner and make it smart.

Control, monitor, automate and save energy by connecting TouchWand Wanderfull controller to your AC and control it locally and globally.

Compatible with most of the known air conditioners in the market.

For new types of air conditioners, we are able to add the protocol if given by manufacturer.

ACWand uses WiFi connection to the network and is connected and paired to the Wanderfull controller.

During pairing to the Wanderfull controller you just choose type of AC and connect. When connection is established you can control via the Wanderfull application on/off, cool/heat modes, Fan modes and temperature.

Powered by micro usb 5V cable adaptor (supplied with the device) that suits 110/230 and installation is quick and simple.
